### ELLIOTT BENEFIT WILL BE STAGED BY CHUGBIKE CLUB

Carnival Motordrome's Proposition Accepted; Riders Get Medals and Hear Report of Committee; Baker-Johns Match Race

That the Phoenix Motordrome club will be glad to assist the carnival motordrome people in the popular work of holding a benefit race for the sake of Ted Elliott, who was injured in Sunday's 100-mile race, was shown last evening when at the regular meeting the members decided to take over most of the work of selling tickets.

The motordrome manager, G. P. Mills, at once ordered a large number of tickets which will be peddled by the boys in batches of scores. One-half the proceeds goes to Elliott, as well as ten per cent of the gate. This is considered a pretty fair cut of the purse, and should net the injured man a tidy sum. If the boys attack this problem as heartily as they did that of the 100-mile, it will be a tremendous success.

With the talk of a large motordrome endurance run to Agua Caliente came the development proposed by John Holt—that each rider take a bath in the hot springs before starting on the return journey. The reason that Holt proposed this was not to insure the riders coming back minus the dust they had accumulated going out, but to try them. It is well known that the hot baths make

the slip out of a fellow, and if he can stand one on top of a two hundred-mile motordrome run he will deserve all the premiums he wins.

Medals were given out to those of the club members who made perfect scores in the valley run in February.

The report of the committee on the Phoenix club's 100-mile was accepted and the committee discharged. Then things warmed up for another committee which was appointed forthwith. On motion by J. W. Tompkins, seconded by C. Pottinger, the committee which had been named to treat with the Maricopa Auto club about the Sun Fete races was enlarged by the addition of two members. Vice President John named Joe Gladieux and Pottinger to serve with L. Abbott, who had been named at a former meeting.

Don Johns is remaining in Phoenix in the hope of getting on the same track with E. G. Baker. He wants to race the big Phoenixian even for any distance. He intimates that having ridden the back tire off Baker's machine, he wants to ride him with both tires good so he can give the loser of Sunday's race a run for his money. Baker is now engaged absorbingly in the matter of his coming transcontinental motordrome race for record, and has not yet been approached concerning a match race with Johns. It is quite possible, however, that the two can be matched for a thirty or a fifty on Sun Fete day. The auto club has intimated that this event would be worth a stem rider of a guarantee.

### WILD BILL CAN BE MONOTONOUS

It Was On a 22-mile Trip Around and Around State Fair Track That Tremaine Bored Republican Scribe for First Time

(Per Scoop)

Driving a Maxwell 25, equipped with a Barnard carburetor, kicking a strong, shifty wind and pulling the turns at the rate of 30 miles an hour, William D. Tremaine yesterday accomplished 22 2/3 measured linear miles on a suggestion less than a gallon of distillate.

There were five of us in the car, including Bill and the large and ponderous George McClarty. The loud was probably responsible for two of the miles that were lopped off Tremaine's previous road record of 261.2 miles on a gallon of distillate.

Say? If there is anything more monotonous than riding around a mile dirt track at a comparatively slow pace for a little over 22 1/2 laps, I wish you would pick it out and don't send it to me. I had ridden with Wild Bill Tremaine in several motor cars, when it was a good deal more hair raising than it was yesterday. It is not that Mr. Tremaine's personality is not pleasing, and his company uplifting, but there are Jim-willets for him who rides in the back seat and sets down a black mark everytime he sees the tape slide under the radiator. It was so sleep out there in the breeze that I took to jolting down the check marks with my eyes closed, knowing the end of the mile by the little bump that the water wagon has made across the track opposite the main gate.

If Bill expected to equal his road record he was badly disappointed, but there was a reason, just as there is for some of the things that advertise it. One was the turns. In 22 miles there are 44 turns, and at 30 miles an hour every turn is a bill. There was just a little less than a gallon of distillate in the tank for Bill stopped some out in filling. Then there was the steady grind at a constant speed, which some think uses fuel pretty liberally.

The test was made at the instance of Jack Holmes, manager of the Overland garage, and local agent for the Barnard device. Drossler, the travelling agent was in the car watching the test, and to him it was totally satisfactory.

The agitation over carburetors is a result of the contention that Jack Smith and Tremaine got into over the Master. Now each is striving to beat the other's records, and it's a merry war from which the agents gain much publicity and the automobile scribe some poor bits of a living.

#### STANDING OF THE CLUBS.

| Club.         | Won. | Lost. | Pct. |

### MESA ANXIOUS TO SEE HURLER GOSS AT WORK

Jewels Secure Chance for Games in Tucson, End of the Week

(Special to The Republican)  
MESA, April 7.—The Central Arizona League will open at Mesa next Sunday afternoon, April 12. Langowski has a few extra cards up his sleeve which he promises to spring as a surprise for the Mesa fans. He has decided to start McGowan, but he is also going to play Goss some, also. The local fans have been waiting for a month to see Goss go and have not had the opportunity. They have heard how well he gets along when he goes visiting and they are satisfied with his work, but they just naturally want to see how he conducts himself on the home lot.

The university is mighty anxious to get a game with the Mesa team

### ORME ELECTED; PROJECT WILL BE EXTENDED

Insofar As Water Resources Are Concerned; Wilbur Re-elected With Team Mate of Three Campaigns

President, John Orme.  
Vice-president, E. W. Wilbur.  
Governors—Rudolph Johnson, Wilkinson, Hanson, Casel, Lassen, Bennett, Rockwell, Clemens, Morris, Dobson.

Councilmen—Kuchler, Wilky, Graham, E. E. Jack, Irvin, Murphy, Creighton, Austin, Davis, Tweedy for three years; Patch, Heffner, for two years; Phelps for one year.

All propositions carried.  
In brief, those are the results of the most strenuous election of the Water Users' association yesterday. A good percentage of the total vote was out, as the fight for the presidency grew warm during the last few hours of the pre-election campaign. On the presidential ballot, the results were:

Orme, 59,485; Perkins, 3,238; Humbert, 687.

Wilbur was re-elected vice-president by a vote of 59,688.

By districts, the vote on governors was as follows:

First—Johnson beat Barkley for re-election, 3,198 to 1,256.

Second—Wilkinson, 5,775.

Third—Hanson beat Evans, being re-elected by a vote of 4,747 to 789.

Fourth—Casey was re-elected over Eiter, 7,299 to 5,834.

Fifth—Lassen, unopposed, walked to victory with 8,945 votes.

Sixth—Returned E. J. Bennett with 5,247.

Seventh—Poster H. Rockwell beat E. O. Brown by 4,596 to 3,372.

Eighth—Clemens was re-elected over Goodrich by 5,429 to 4,938.

The reason for this was that although Goodrich had the biggest vote obtained, not enough of his supporters failed to put the cross opposite his name after they had written it in. This defeated Goodrich, as no ballot so misdirected could be counted.

Ninth—Morris, unopposed, 4,258.

Tenth—Dobson, unopposed, 5,640.

In the council election there were three classes of candidates, those for one, those for two and those for three years. The three-year termers were regularly elected after expired terms, and the others will serve out unexpired terms.

First—Kuchler, 4,164, and Patch, 4,174, for two years.

Second—Wilky, 5,785.

Third—Graham, 4,845.

Fourth—Jack beat McDermott, 8,995 to 2,206.

Fifth—Irvin, 8,619.

Sixth—Murphy, 3,360.

Seventh—Creighton, 7,619.

Eighth—Austin, 9,626.

Ninth—Davis, 4,967, for three years, and Phelps, 4,633, for one year.

Tenth—Tweedy, 5,640, for three years, and Heffner, 5,640, for two years.

On Proposals.

The vote on the three proposals, although not as complete as that on the officers at the time the operator left her switchboard at 10:30 last night was conclusive. It stood, in totals:

Proposal 1: For 32,621 Against 19,996

Proposal 2: For 32,983 Against 12,168

Proposal 3: For 25,576 Against 10,611

Mr. Orme will be serving his third term as president of the Salt River Valley Water Users' association when he assumes the chair at the annual meeting, which occurs next month early.

### Y. M. C. A. HIBROWS ARE GOING TO ORGANIZE

In the spring a high brow's fancy lightly turns to thoughts of chess. It's just as true as the other saying about fancy and love, which has been quite famous up to now.

The material demonstration of the abstract statement which heads this effort will be found at the Y. M. C. A. next Friday night when the chess enthusiasts will meet to form a club. The promotion of a chess tournament among members of the Y. M. C. A. will be the main object of the organization. A trophy cup has been competed for two years in succession, now, and L. G. Knipe has gathered it in among his other relics each time and with apparent mental ease. There are quite a few enthusiasts among the Y. M. C. A. Here is one game that accords well with the accepted idea that the Y is a molly-coddle sort of a place—those who accept this idea and then pay a visit to the Y during volley ball hours usually take it back where they got it.

on Thursday and Friday of this week or on Friday and Saturday. They have offered splendid inducements and it is probable that the team will make the trip. The town team at Tucson has also been asking for a go, but on account of the league schedule, making dates has been a little awkward. However, with the advertising already secured for the Mesa team it is believed that it will draw well at almost any town in the state.

The trip to Tucson will be made in the team automobiles.

## DONOFRIO

Offers for EATSER Flowers

Potted Easter Lilies Cut Easter Lilies Cut Calla Lilies  
Tulips Sweet Peas Roses Carnations  
Quick, special service on mail and telephone orders.

### Novelties

Everything in Easter Novelties for the children and "grown-ups."

Chickens, ducks, rabbits, and all other kinds of little animal novelties.

Pretty favors for Easter parties, special Easter boxes, etc.

### DENVER RACES WILL SUCCEED

Jockey Maynard Tells Republican Readers Why He Thinks Revival of Sport of Kings Will Be a Big Go In Colorado

By Fred Maynard, of the Anthony and Cleopatra Co.

From all indications, the 15-day race meeting which is scheduled to take place in Denver, starting on June 19, will be the most successful ever conducted in the Rocky Mountain region. Already there are about 200 thoroughbreds quartered at overland park, the Denver race course, and with the gallopers now racing on the Oklahoma tracks, and other thoroughbreds that will be shipped to the Queen City for the races there will be at least 500 horses in attendance.

Secretary Bob Leighton is receiving applications for stable room with every mail. Horsemen from all parts of the country are making entries for the different stake events. Not only are the owners of running horses preparing for the coming meeting, but the harness horse men are getting their fast steppers ready.

The meeting this year, which is to be a mixed one, has attracted the attention of some of the most prominent owners of harness horses in the country, and it is likely that several records will be lowered at the coming meet for the outside track at Overland, which is used by the trotters and pacers is one of the fastest in the country. The class of horses entered for the stakes in the harness events at Denver are among the classiest performers in the west.

The business men of Denver are elated over the prospects of a revival of the racing game in Denver, and there are but comparatively few horsemen yet in the city, they are not noticing an increase in their regular business. The men who follow the ponies are liberal spenders and live well. This all costs money and Denver is reaping the benefit.

The Pari-Mutuel system which is to be used at the Denver meeting has

### CHARLIE ORME ONLY NOVICE

Son of Pres. Orme of Water Users Here Makes Seat Six On Stanford Crew to Row California and Washington

(Associated Press Dispatch)

STANFORD, UNIVERSITY, Cal., April 7.—The Stanford Varsity eight, as announced today, will row against California and Washington on the Oakland Estuary next Saturday in the order given below.

Orme is the only man in the Varsity shell not a veteran; he rowed with the freshman eight last year.

#### The Crews

Stroke, Edwin B. Wolford of Oakland; seven, Ivan M. Huleman of San Jose; six, Charles H. Orme of Phoenix, Arizona; five, Frank E. Rehm of Sonoma, Calif.; four, Gustave A. Jacomini of South Pasadena; three, Philip P. Cloer, captain, of Pasadena; two, Frank O. Olmstead of Los Angeles; bow, James S. Jeffers of Los Angeles; Coxswain, Leroy F. Reinehan, of Pasadena.

#### VAN BITTNER MAKES CHARGES

PITTSBURG, April 7.—Van Bittner, president of district five, United Mine Workers of America, issued a statement today charging that efforts were made in the interest of the non-union mines of Pittsburgh, "to throw the union mines into ill-repute and thereby permit non-union mines to reap the benefit of increased orders."

#### ORANGEWOOD SOCIAL CLUB

The next meeting of the Orangewood Social and Improvement club will be held at the residence of Mrs. David Nelson on North Central avenue this afternoon at 2:30 o'clock.

proved the biggest kind of a success in Kentucky and should take well at Denver, especially as there will be large fields in nearly every event. Then, from the present indications, the majority of the races will bring evenly balanced fields which also favors the system of laying wagers per the Iron
